No option to enable preview released of .NET Core

Asked 3 months ago Active 3 months ago Viewed 289 times

I just installed Visual Studio 16.1.0 recently. I can no longer target .NET Standard 3.0 or .NET Core 3.0 and when I go to Tools > Options > Projects and Solutions > .NET Core there is no checkbox to enable preview releases.

By using our site, you acknowledge that you have read and understand our [Cookie Policy](#), [Privacy Policy](#), and our [Terms of Service](#).

I do have .NET Core 3.0.100-preview 4 installed as well

Apps & features

	Microsoft .NET Core SDK 2.1.700 (x64) Microsoft Corporation	483 MB 5/22/2019
	Microsoft .NET Core SDK 2.2.300 (x64) Microsoft Corporation	492 MB 5/22/2019
	Microsoft .NET Core SDK 3.0.100 - preview4 (...) Microsoft Corporation	474 MB 5/22/2019

I have repaired Visual Studio, uninstall/install, and for some reason, I have no option to enable preview releases. I'm hoping that this will also solve my TFS build issue since my machine is a build agent.

I do have .NET Core 3.0.100-preview 4 installed as well

Having the .NET Core SDK installed isn't actually required to enable this particular feature.
